- (a) Transferor Companies and Transferee Company are engaged in same segment of business. Hence, under this Scheme, the Amalgamation of the Transferor Companies into the Transferee Company would enable the Transferee Company to consolidate all the business activities pertaining to the said Transferor Companies into one single entity i.e. the Transferee Company. Further, the management of the Transferee Company would be strengthened as the management of the Transferor Companies and the Transferee Company would be clubbed into the Transferee Company, which would thereby ensure effective management of the affairs of the Transferor Companies and Transferee Company subsequent to their amalgamation. The said amalgamation would also result in streamlining the group structure especially by combining all of them into one single entity and would provide several benefits such as easing the regulatory, statutory and compliance requirements of all the companies and would also work to the advantage of the shareholders of the Companies as the said amalgamation would result in rationalizing the costs/expenses incurred.
- (b) The amalgamation will contribute in furthering and fulfilling the objectives and business strategies of the companies thereby accelerating growth, expansion and development of the respective businesses through the Transferee Company. The amalgamation will thus enable further expansion of the Transferee Company and provide a strong and focused base to undertake the business more advantageously. Further, this arrangement would bring concentrated management focus, integration, streamlining of the management structure, seamless implementation of policy changes and shall also help to enhance the efficiency and control of the Transferor Companies and Transferee Company.
- (c) Further, the independent operations of the Transferor Companies and Transferee Company leads to incurrence of significant costs, duplication of administrative & establishment costs and the amalgamation would enable economies of scale by attaining critical mass and achieving cost saving and better financial management of resources. The amalgamation will thus eliminate a multi-layered structure and reduce managerial overlaps, which are necessarily involved in running multiple entities and also prevent cost duplication that can erode financial efficiencies of a holding structure and the resultant operations would be substantially cost-efficient. This Scheme would result in simplified corporate structure of the Transferee Company and its businesses, thereby leading to more efficient utilization of capital and creation of a consolidated base for future growth of the Transferee Company.
- (d) The Amalgamation of Transferor Companies and Transferee Company will create synergy benefits for the stakeholders of the companies and it shall optimize the valuation of the consolidated Transferee Company. The amalgamation would also increase operational efficiency and integrate business functions.
- (e) The proposed arrangement will provide greater integration and flexibility to the Transferee Company and strengthen its position in the industry, in terms of the asset base, revenues and service range.
- (f) The other benefits of the proposed amalgamation include:
- I. Optimum and efficient utilization of financial resources and rationalization of capital, resources, assets and facilities;
 - II. Enhancement of competitive strengths including financial resources;

- III. Obtaining synergy benefits;
- IV. Better management and focus on growing the businesses;
- V. Reduction of overheads, administrative, managerial and other expenditure.
- VI. Simplify shareholding structure and reduce shareholding tiers.

C. RATIONALE FOR THE SCHEME OF ARRANGEMENT

- Transferor Companies and Transferee Company are engaged in same segment of business. Hence, under this Scheme, the Amalgamation of the Transferor Companies into the Transferee Company would enable the Transferee Company to consolidate all the business activities pertaining to the said Transferor Companies into one single entity i.e. the Transferee Company. Further, the management of the Transferee Company would be strengthened as the management of the Transferor Companies and the Transferee Company would be clubbed into the Transferee Company, which would thereby ensure effective management of the affairs of the Transferor Companies and Transferee Company subsequent to their amalgamation. The said amalgamation would also result in streamlining the group structure especially by combining all of them into one single entity and would provide several benefits such as easing the regulatory, statutory and compliance requirements of all the companies and would also work to the advantage of the shareholders of the Companies as the said amalgamation would result in rationalizing the costs/expenses incurred.
- The amalgamation will contribute in furthering and fulfilling the objectives and business strategies of the companies thereby accelerating growth, expansion and development of the respective businesses through the Transferee Company. The amalgamation will thus enable further expansion of the Transferee Company and provide a strong and focused base to undertake the business more advantageously. Further, this arrangement would bring concentrated management focus, integration, streamlining of the management structure, seamless implementation of policy changes and shall also help to enhance the efficiency and control of the Transferor Companies and Transferee Company.
- Further, the independent operations of the Transferor Companies and Transferee Company leads to incurrance of significant costs, duplication of administrative & establishment costs and the amalgamation would enable economies of scale by attaining critical mass and achieving cost saving and better financial management of resources. The amalgamation will thus eliminate a multi-layered structure and reduce managerial overlaps, which are necessarily involved in running multiple entities and also prevent cost duplication that can erode financial efficiencies of a holding structure and the resultant operations would be substantially cost-efficient. This Scheme would result in simplified corporate structure of the Transferee Company and its businesses, thereby leading to more efficient utilization of capital and creation of a consolidated base for future growth of the Transferee Company.
- The Amalgamation of Transferor Companies and Transferee Company will create synergy benefits for the stakeholders of both the companies and it shall optimize the valuation of the consolidated Transferee Company. The amalgamation would also increase operational efficiency and integrate business functions.
- The proposed arrangement will provide greater integration and flexibility to the Transferee Company and strengthen its position in the industry, in terms of the asset base, revenues and service range.
- The other benefits of the proposed amalgamation include:
 - I. Optimum and efficient utilization of financial resources and rationalization of capital, resources, assets and facilities;
 - II. Enhancement of competitive strengths including financial resources;
 - III. Obtaining synergy benefits;

Hence, under this Scheme, the Amalgamation of the Transferor Companies into the Transferee Company would enable the Transferee Company to consolidate all the business activities pertaining to the said Transferor Companies into one single entity i.e. the Transferee Company. Further, the management of the Transferee Company would be strengthened as the management of the Transferor Companies and the Transferee Company would be clubbed into the Transferee Company, which would thereby ensure effective management of the affairs of the Transferor Companies and Transferee Company subsequent to their amalgamation. The said amalgamation would also result in streamlining the group structure especially by combining all of them into one single entity and would provide several benefits such as easing the regulatory, statutory, and compliance requirements of all the companies and would also work for the advantage of the shareholders of the Companies as the said amalgamation would result in rationalizing the costs/expenses incurred.

The amalgamation will thus enable further expansion of the Transferee Company and provide a strong and focused base to undertake the business more advantageously. Further, this arrangement would bring concentrated management focus, integration, streamlining of the management structure, and seamless implementation of policy changes and shall also help to enhance the efficiency and control of the Transferor Companies and Transferee Company.

This Scheme would result in a simplified corporate structure of the Transferee Company and its businesses, thereby leading to more efficient utilization of capital and the creation of a consolidated base for the future growth of the Transferee Company and its businesses, thereby leading to more efficient utilization of capital and the creation of a consolidated base for the future growth of the Transferee Company.
- The Amalgamation of Transferor Companies and Transferee Company will create synergy benefits for the stakeholders of both companies and it shall optimize the valuation of the consolidated Transferee Company. The amalgamation would also increase operational efficiency and integrate business functions.
- The proposed arrangement will provide greater integration and flexibility to the Transferee Company and strengthen its position in the industry, in terms of the asset base, revenues, and service range.
- The other benefits of the proposed amalgamation include:
 - Optimum and efficient utilization of financial resources and rationalization of capital, resources, assets, and facilities;
 - Enhancement of competitive strengths including financial resources;

SECTION III - METHODS OF VALUATION ADOPTED

In the case of a valuation for Amalgamation, the emphasis is on arriving at the "relative" values of the shares of the merging companies to facilitate the determination of the "share exchange ratio". Hence, the purpose is not to arrive at absolute values of the shares of the companies.

Judicial Pronouncements:-

Hindustan Ilever Employees' Union v/s Hindustan Ilever Limited and others (1995) 83 Company cases 30 (SC)

The jurisdiction of the Court in sanctioning a claim of a merger is not to ascertain mathematical accuracy if the determination satisfied the arithmetical test. A company court does not exercise appellate jurisdiction. It exercises a jurisdiction founded on fairness. It is not required to interfere only because the figure arrived at by the valuer was not as good as it would have been if another method had been adopted. What is imperative is that such determination should not have been contrary to law and that it was not unfair to the shareholders of the company which was being merged.

The Hon'ble Supreme Court held "We do not think that the internal management, business activity, or institutional operation of public bodies can be subjected to inspection by the court. To do so is incompetent and improper and, therefore, out of bounds."

The dominance of profits for the valuation of shares was emphasized in "McCathies case" (Taxation, 69 CLR 1) where it was said that "*the real value of shares in a company will depend more on the profits which the company has been making and should be capable of making, having regard to the nature of its business, than upon the amount which the shares would realize on liquidation*". This was also re-iterated by the Indian Courts in Commissioner of Wealth Tax v. MahadeoJalan's case (S.C.) (86 ITR 621) and Additional Commissioner of Gift Tax v. Kusumben D. Mahadevia (S.C.) (122 ITR 38).

In the ultimate analysis, valuation will have to involve the exercise of judicious discretion and judgment considering all the relevant factors. There will always be several factors, e.g., present, and prospective competition, the yield on comparable securities, and market sentiments, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a share.

Based on the facts of the case, we have valued Belco Special Steels Private Limited ("Transferor Company 1"/"BSSPL"), Parkash Multimetals Private Limited ("Transferor Company 2"/"PMPL") & Behari Lal Ispat Private Limited ("Transferee Company"/"BLIPL") as per Adjusted Net Asset Value (NAV) Method & Comparable Companies Multiples (CCM) Method.

SECTION – IV VALUATION ANALYSIS

There are three approaches to Valuation namely Income, Asset, and Market Approaches.

Approach	Valuation Methodologies	Basis of Consideration
Asset	Adjusted Net Asset Value (NAV) Method	<p>The Asset-based method views the business as a set of assets and liabilities that are used as building blocks of a business value. The difference in the value of these assets and liabilities on a Book Value basis or Realizable Value basis or Replacement Cost basis is the business value.</p> <p>In the case of Transferee Company, as the company is holding the surplus asset in the financials, the Adjusted Net Asset Value (NAV) Method has been adopted for the present valuation exercise for the company. In case of the Transferor companies, the companies are holding Surplus Assets/Investments that generate other income, hence we deemed it suitable to apply Adjusted Net Asset Value (NAV) Method.</p>
Market	Comparable Companies Multiples (CCM) Method	<p>This methodology uses the valuation ratio of a publicly traded company and applies that ratio to the company being valued. The valuation ratio typically expresses the valuation as a function of a measure of financial performance or Book Value (e.g., Revenue, EBITDA, EBIT, Earnings per Share or Book Value). A key benefit of Comparable Company Market Multiple analysis is that the methodology is based on the current market stock price. The current stock price is generally viewed as one of the best valuation metrics because it is based on observable inputs.</p> <p>In case of BSSPL & BLIPL, we applied this methodology as the listed peers of the Company were available. To arrive at the value of equity shares, we have considered the 'Market Capitalization to Sales Multiple' & 'EV/EBITDA Multiple' of the comparable companies. In case of PMPL, we applied this methodology as the listed peers of the Company were available. To arrive at the value of equity shares, we have considered the 'Price to Earnings Multiple' of the comparable companies.</p>
Income	Discounted Free Cash Flow (DFCF) Method	<p>The DFCF method expresses the present value of the business as a function of its future cash earnings capacity. This methodology works on the premise that the value of a business is measured in terms of future cash flow streams, discounted to the present time at an appropriate discount rate. The value of the firm is arrived at by estimating the Free Cash Flows (FCF) to the Firm and discounting the same with the Weighted Average cost of capital (WACC). The DFCF methodology is considered to be the most appropriate basis for determining the earning capability of a business. In the DFCF approach, the appraiser estimates the cash flows of any business after all operating expenses, taxes, and necessary investments in working capital and Capex are met.</p> <p>In the instant case, the management has not provided the projections of the companies. Hence, we deemed it suitable to avoid this methodology for the purpose of the Valuation exercise of the company.</p>

COMPARABLE COMPANIES MULTIPLES (CCM) METHOD

a) Market Capitalization to Sales Multiple

As per Market Capitalization to Sales Multiple	
Particulars	Amount (INR Million)
Revenue from Operations for the 12 Months period ended 30.09.2022	1,625.02

Less : Deferred Tax Liabilities as on 30.09.2022	3.98
Adjusted Equity Value as on 03.02.2023	201.61

To arrive at the value of equity shares, we have calculated the 'EV/EBITDA Multiple', wherein the Profits after Tax of the Company for the Trailing Twelve Months (TTM) period from 01st October, 2021 to 30th September, 2022 is multiplied by the 'Daily Median EV/EBITDA Multiple' of listed peer companies as on 03.02.2023.

We have considered Comparable Companies as a follow-on the basis of the following parameters:

- 1. Business Model:-** We have considered only those companies whose Industry classification and business model (in terms of the principal products/services) are similar to the company's business model. For Industry classification, we have relied upon the BSE and Capitaline databases.
- 2. Turnover, Profit Margins, and Return on Capital Employed (ROCE):-** We have considered only those companies, whose risk and return characteristics fall within close range to that of the Company. The risk and return metrics have been evaluated in terms of the Turnover, Profit margins, and ROCE which segment the broad industry into a bifurcate turnover that is close to the Company's turnover.
- 3. Trade Volume:-** Only those companies have been considered, whose shares are frequently traded at National Stock Exchange (NSE) or Bombay Stock Exchange (BSE) under the SEBI (ICDR) Regulations, 2018.

4. VALUATION METHODOLOGY

a) Valuation Date is 06th February, 2023.

b) For the purpose of the valuation of the company, the following methods were adopted and reasons for adoption and rejection are mentioned hereunder –

Asset	Adjusted Net Asset Value (NAV) Method	<p>The Asset-based method views the business as a set of assets and liabilities that are used as building blocks of a business value. The difference in the value of these assets and liabilities on a Book Value basis or Realizable Value basis or Replacement Cost basis is the business value.</p> <p>In the case of Transferee Company, as the company is holding the surplus asset in the financials, the Adjusted Net Asset Value (NAV) Method has been adopted for the present valuation exercise for the company.</p>
-------	---------------------------------------	---

		In case of the Transferor companies, the companies are holding Surplus Assets/Investments that generate other income, hence we deemed it suitable to apply Adjusted Net Asset Value (NAV) Method.
Market	Comparable Companies Multiples (CCM) Method	<p>This methodology uses the valuation ratio of a publicly traded company and applies that ratio to the company being valued. The valuation ratio typically expresses the valuation as a function of a measure of financial performance or Book Value (e.g., Revenue, EBITDA, EBIT, Earnings per Share or Book Value). A key benefit of Comparable Company Market Multiple analysis is that the methodology is based on the current market stock price. The current stock price is generally viewed as one of the best valuation metrics because it is based on observable inputs.</p> <p>In case of BSSPL & BLIPL, we applied this methodology as the listed peers of the Company were available. To arrive at the value of equity shares, we have considered the ‘Market Capitalization to Sales Multiple’ & ‘EV/EBITDA Multiple’ of the comparable companies.</p> <p>In case of PMPL, we applied this methodology as the listed peers of the Company were available. To arrive at the value of equity shares, we have considered the ‘Price to Earnings Multiple’ of the comparable companies.</p>
Income	Discounted Free Cash Flow (DFCF) Method	<p>The DFCF method expresses the present value of the business as a function of its future cash earnings capacity. This methodology works on the premise that the value of a business is measured in terms of future cash flow streams, discounted to the present time at an appropriate discount rate. The value of the firm is arrived at by estimating the Free Cash Flows (FCF) to the Firm and discounting the same with the Weighted Average cost of capital (WACC). The DFCF methodology is considered to be the most appropriate basis for determining the earning capability of a business. In the DFCF approach, the appraiser estimates the cash flows of any business after all operating expenses, taxes, and necessary investments in working capital and Capex are met.</p> <p>In the instant case, the management has not provided the projections of the companies. Hence, we deemed it suitable to avoid this methodology for the purpose of the Valuation exercise of the company.</p>

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including annexures to Board's Report, Business Responsibility Report, Corporate Governance Report, and shareholder information, but does not include the financial statements and our auditor's report thereon. Board's Report including Annexures to Board's Report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and informing our opinion thereon, and we do not provide a separate opinion on these matters.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors are responsible for the matters in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position and financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act read with rule 7 of the Company (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Report on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, There is no
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we had complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern. We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Report on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, There is no
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we had complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. The rationale of the Scheme is given below:-

a. Transferor Companies and Transferee Company are engaged in same segment of the business. Hence, under this Scheme, the Amalgamation of the Transferor Companies into the Transferee Company would enable the Transferee Company to consolidate all the business activities pertaining to the said Transferor Companies into one single entity i.e. the Transferee Company. Further, the management of the Transferee Company would be strengthened as the management of the Transferor Companies and the Transferee Company would be clubbed into the Transferee Company, which would thereby ensure effective management of the affairs of the Transferor

Companies and Transferee Company subsequent to their amalgamation. The said amalgamation would also result in streamlining the group structure especially by combining all of them into one single entity and would provide several benefits such as easing the regulatory, statutory and compliance requirements of all the companies and would also work to the advantage of the shareholders of the Companies as the said amalgamation would result in rationalizing the costs/expenses incurred.

- b. The amalgamation will contribute in furthering and fulfilling the objectives and business strategies of the companies thereby accelerating growth, expansion and development of the respective businesses through the Transferee Company. The amalgamation will thus enable further expansion of the Transferee Company and provide a strong and focused base to undertake the business more advantageously. Further, this arrangement would bring concentrated management focus, integration, streamlining of the management structure, seamless implementation of policy changes and shall also help to enhance the efficiency and control of the Transferor Companies and Transferee Company.
- c. Further, the independent operations of the Transferor Companies and Transferee Company leads to incurrence of significant costs, duplication of administrative & establishment costs and the amalgamation would enable economies of scale by attaining critical mass and achieving cost saving and better financial management of resources. The amalgamation will thus eliminate a multi-layered structure and reduce managerial overlaps, which are necessarily involved in running multiple entities and also prevent cost duplication that can erode financial efficiencies of a holding structure and

the resultant operations would be substantially cost-efficient. This Scheme would result in simplified corporate structure of the Transferee Company and its businesses, thereby leading to more efficient utilization of capital and creation of a consolidated base for future growth of the Transferee Company.

- d. The Amalgamation of Transferor Companies and Transferee Company will create synergy benefits for the stakeholders of both the companies and it shall optimize the valuation of the consolidated Transferee Company. The amalgamation would also increase operational efficiency and integrate business functions.
- e. The proposed arrangement will provide greater integration and flexibility to the Transferee Company and strengthen its position in the industry, in terms of the asset base, revenues and service range.
- f. The other benefits of the proposed amalgamation include:
 - I. Optimum and efficient utilization of financial resources and rationalization of capital, resources, assets and facilities;
 - II. Enhancement of competitive strengths including financial resources;
 - III. Obtaining synergy benefits;
 - IV. Better management and focus on growing the businesses;
 - V. Reduction of overheads, administrative, managerial and other expenditure.
 - VI. Simplify the shareholding structure and reduce shareholding tiers.
